Description

Precondition: User is logged in as "problem_user" on the inventory page.

Steps to Reproduce:

1. Click "Add to cart" on "Sauce Labs Bolt T-Shirt"

2. Repeat for "Sauce Labs Fleece Jacket" and "Test.allTheThings() T-Shirt (Red)"

3. Observe the cart badge

Actual Result: The button does not respond; the product is not added to the cart and the cart badge does not increase for these 3 products. (Other products add normally.)

Expected Result: Clicking "Add to cart" adds the product to the cart and the cart badge increments, as it does for "standard_user".

Severity: High — purchasing is fully blocked for these products, no workaround.

Priority: High — directly prevents sales of affected items.

Environment: Chrome 148.0.7778.217 / Windows 10 / user: problem_user
